

### **Vroom Announces Record Ecommerce Gross Profit Per Unit of \$3,629**

August 8, 2022

### **Substantial Progress on Long-Term Roadmap**

NEW YORK--(BUSINESS WIRE)--Aug. 8, 2022-- Vroom, Inc. (Nasdaq:VRM), a leading ecommerce platform for buying and selling used vehicles, today announced financial results for the second quarter ended June 30, 2022.

#### HIGHLIGHTS OF SECOND QUARTER 2022 VERSUS FIRST QUARTER 2022

- Ecommerce gross profit per unit of \$3,629, up 106%
- SG&A expenses decreased \$35.0 million
- Net loss improved from \$310.5 million to \$115.1 million
- Adjusted EBITDA loss improved from \$107.4 million to \$85.6 million

Tom Shortt, Chief Executive Officer of Vroom, commented: "The second quarter of 2022 marked substantial progress for Vroom against our four strategic initiatives outlined in our recent investor and analyst event. We announced record Ecommerce gross profit per unit and improved our adjusted EBITDA from the prior quarter. We also began scaling UACC-originated loans for Vroom, which contributed to our improvement in gross profit per unit. I would like to thank all of our Vroommates and our third-party partners for their support in serving our customers."

Bob Krakowiak, Vroom's Chief Financial Officer, commented: "I am proud of our achievements in the second quarter. Our Ecommerce gross profit per unit of \$3,629 reflects our commitment to our first key objective of prioritizing unit economics. We are making progress in reducing our cost structure as detailed in our business realignment plan presented in May. We realized a \$35 million sequential improvement in SG&A and, as a result of our initiatives, we ended the quarter with \$533 million in liquidity. Based on our progress, we are continuing to forecast year-end liquidity of approximately \$500 million at the midpoint."

#### **SECOND QUARTER 2022 FINANCIAL RESULTS**

<sup>(1)</sup> In the second quarter of 2022, we reevaluated our reporting segments based on relative revenue and gross profit and significance in our long term strategy. As a result of that analysis, we determined to no longer report TDA as a separate operating segment. As of June 30, 2022, we are organized into three reportable segments: Ecommerce, Wholesale, and Retail Financing. We reclassified TDA revenue and TDA gross profit from the TDA reportable segment to the "All Other" category to conform to current year presentation.

- (2) All Other units consist of retail sales of used vehicles from TDA.
- (3) The Retail Financing segment represents UACC's operations with its network of third-party dealership customers as of the closing of the UACC acquisition in February 2022.
- (4) All Other revenues and gross profit consist of retail sales of used vehicles from TDA and fees earned on sales of value-added products associated with those vehicles sales and the CarStory business.
- (5) Gross profit per unit metrics exclude the Retail Financing gross profit and All Other gross profit.

### **Non-GAAP Financial Measures**

In addition to our results determined in accordance with U.S. GAAP, we believe the following non-GAAP financial measures are useful in evaluating our operating performance: EBITDA, Adjusted EBITDA, Adjusted EBITDA excluding securitization gain, Non-GAAP net loss, Non-GAAP net loss excluding securitization gain, Non-GAAP net loss per share, and Non-GAAP net loss per share excluding securitization gain. These non-GAAP financial measures have limitations as analytical tools in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with U.S. GAAP. Because of these limitations, these non-GAAP financial measures should be considered along with other operating and financial performance measures presented in accordance with U.S. GAAP. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for, or superior to, financial information prepared and presented in accordance with U.S. GAAP. We have reconciled all non-GAAP financial measures with the most directly comparable U.S. GAAP financial measures.

EBITDA, Adjusted EBITDA excluding securitization gain, Non-GAAP net loss, Non-GAAP net loss excluding securitization gain, Non-GAAP net loss per share, and Non-GAAP net loss per share excluding securitization gain, are supplemental performance measures that our management uses to assess our operating performance and the operating leverage in our business. Because EBITDA, Adjusted EBITDA, Adjusted EBITDA excluding securitization gain, Non-GAAP net loss, Non-GAAP net loss excluding securitization gain, Non-GAAP net loss per share, and Non-GAAP net loss per share excluding securitization gain facilitate internal comparisons of our historical operating performance on a more consistent basis, we use these measures for business planning purposes.

### EBITDA, Adjusted EBITDA, and Adjusted EBITDA excluding securitization gain

We calculate EBITDA as net loss before interest expense, interest income, income tax expense and depreciation and amortization expense and we calculate Adjusted EBITDA as EBITDA adjusted to exclude realignment costs, acquisition related costs, change in fair value of finance receivables, goodwill impairment charge and other costs, which relate to the write off of the upfront shares issued as part of the Rocket Auto agreement and previously recognized within "Other assets". Changes in fair value of finance receivables can fluctuate significantly from period to period and relate primarily to historical loans and debt which have been securitized, and acquired on February 1, 2022 from UACC. Our ongoing business model is to originate or purchase finance receivables with the intent to sell which we recognize at the lower of cost or fair value. Therefore, these historical finance receivables acquired, which are accounted for under the fair value option, will experience fluctuations in value from period to period. We believe it is appropriate to remove this temporary volatility from our Adjusted EBITDA results to better reflect our ongoing business model. Additionally, these historical finance receivables acquired from UACC are expected to run-off within approximately 15 months. We calculate Adjusted EBITDA excluding securitization gain as Adjusted EBITDA adjusted to exclude the securitization gain from the sale of UACC's finance receivables, and believe that it provides a useful perspective on the underlying operating results and trends and a means to compare our period-over-period results. The following table presents a reconciliation of EBITDA, Adjusted EBITDA, and Adjusted EBITDA excluding securitization gain to net loss, which is the most directly comparable U.S. GAAP measure:

# Non-GAAP net loss, Non-GAAP net loss per share, Non-GAAP net loss excluding securitization gain, and Non-GAAP net loss per share excluding securitization gain

We calculate Non-GAAP net loss as net loss adjusted to exclude realignment costs, acquisition related costs, change in fair value of finance receivables, goodwill impairment charge, and other costs, which relate to the write off of the upfront shares issued as part of the Rocket Auto agreement and previously recognized within "Other assets". We calculate Non-GAAP net loss per share as Non-GAAP net loss divided by weighted average number of shares outstanding. We calculate Non-GAAP net loss excluding securitization gain as Non-GAAP net loss adjusted to exclude the securitization gain from the sale of UACC's finance receivables. We calculate Non-GAAP net loss per share excluding securitization gain as Non-GAAP net loss excluding securitization gain divided by weighted average number of shares outstanding. The following table presents a reconciliation of Non-GAAP net loss, Non-GAAP net loss excluding securitization gain, Non-GAAP net loss per share, and Non-GAAP net loss per share excluding securitization gain to net loss and net loss per share, which are the most directly comparable U.S. GAAP measures:
