## Forward Looking Statements

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained in this presentation that do not relate to matters of historical fact should be considered forward-looking statements, including without limitation statements regarding our financial outlook for the full year 2026, including expected indirect origination volume and adjusted net income (loss), our internal adjusted net income plan, the impact of the restructuring on our balance sheet, our strategic initiatives, cost-savings and reduction in operating expenses and their expected benefits, our expectations regarding UACC's business, including with respect to originations and the impact of credit tightening and securitization transactions, our available liquidity under the warehouse credit facilities and extensions of these facilities, and the timing of any of the foregoing. These statements are based on management's current assumptions and are neither promises nor guarantees, but involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. For factors that could cause actual results to differ materially from the forward-looking statements in this presentation, please see the risks and uncertainties identified under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2025, which is available on our Investor Relations website at [ir.vroom.com](http://ir.vroom.com) and on the SEC website at [www.sec.gov](http://www.sec.gov). All forward-looking statements reflect our beliefs and assumptions only as of the date of this presentation. We undertake no obligation to update forward-looking statements to reflect future events or circumstances.

## Industry and Market Information

To the extent this presentation includes information concerning the industry and the markets in which the Company operates, including general observations, expectations, market position, market opportunity and market size, such information is based on management's knowledge and experience in the markets in which we operate, including publicly available information from independent industry analysts and publications, as well as the Company's own estimates. Our estimates are based on third-party sources, as well as internal research, which the Company believes to be reasonable, but which are inherently uncertain and imprecise. Accordingly, you are cautioned not to place undue reliance on such market and industry information.

## Financial Presentation and Use of Non-GAAP Financial Measures

Certain monetary amounts, percentages and other figures included in this presentation have been subject to rounding adjustments. Certain other amounts that appear in this presentation may not sum due to rounding. This presentation contains certain supplemental financial measures that are not calculated pursuant to U.S. generally accepted accounting principles ("GAAP"). These non-GAAP measures are in addition to, and not a substitute or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP financial measures have limitations as analytical tools in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with U.S. GAAP. Because of these limitations, these non-GAAP financial measures should be considered along with other operating and financial performance measures presented in accordance with U.S. GAAP. We have reconciled all non-GAAP financial measures with the most directly comparable U.S. GAAP financial measures in the Appendix to this presentation.

## Non-GAAP Combined Year Ended December 31, 2025

Our financial results for the periods from January 1, 2025 through January 14, 2025 and the year ended December 31, 2024 are referred to as those of the "Predecessor" period. Our financial results for the period from January 15, 2025 through December 31, 2025 are referred to as those of the "Successor" period. Our results of operations as reported in our Condensed Consolidated Financial Statements for these periods are prepared in accordance with GAAP. Although GAAP requires that we report our results for the period from January 1, 2025 through January 14, 2025 and the period from January 15, 2025 through December 31, 2025 separately, management views our operating results for the year ended December 31, 2025 by combining the results of the applicable Predecessor and Successor periods because such presentation provides the most meaningful comparison of our results to prior periods. We believe we cannot adequately benchmark the operating results of the period from January 15, 2025 through December 31, 2025 against any of the previous periods reported in our Consolidated Financial Statements without combining it with the period from January 1, 2025 through January 14, 2025 and do not believe that reviewing the results of this period in isolation would be useful in identifying trends in or reaching conclusions regarding our overall operating performance. Management believes that the key performance metrics for the Successor period when combined with the Predecessor period provide more meaningful comparisons to other periods and are useful in identifying current business trends. Accordingly, in addition to presenting our results of operations as reported in our Consolidated Financial Statements in accordance with GAAP, the tables and discussion below also present the combined results for the year ended December 31, 2025. The combined results for the year ended December 31, 2025 represent the sum of the reported amounts for the Predecessor period from January 1, 2025 through January 14, 2025 and the Successor period from January 15, 2025 through December 31, 2025. These combined results are not considered to be prepared in accordance with GAAP and have not been prepared as pro forma results per applicable regulations. The combined operating results do not reflect the actual results we would have achieved absent our emergence from Prepackaged Chapter 11 Case and are not necessarily indicative of future results. Accordingly, the results for the combined year ended December 31, 2025 (prepared on a Non-GAAP basis) and year ended December 31, 2024 (prepared on a GAAP basis) may not be comparable, particularly for statement of operations line items significantly impacted by the Reorganization transactions and the impact of fresh start accounting.

# reconciliation of non-gaap financial measures

## Non-GAAP Financial Measures

In addition to our results determined in accordance with U.S. GAAP, we believe the following non-GAAP financial measures are useful in evaluating our operating performance: Adjusted net income (loss), total available liquidity, and tangible book value.

Adjusted net income (loss) is a supplemental performance measure that our management uses to assess our operating performance and the operating leverage in our business. Because Adjusted net income (loss) facilitates internal comparisons of our historical operating performance on a more consistent basis, we use this measure for business planning purposes.

Total available liquidity represents unrestricted cash and cash equivalents, availability from warehouse credit facilities and available liquidity from delayed draw facility.

These non-GAAP measures have limitations as analytical tools because they do not reflect all of the amounts associated with our results of operations or liquidity as determined in accordance with U.S. GAAP. Additionally, they may not be comparable to similarly titled measures of other companies. Other companies, including companies in our industry, may calculate non-GAAP financial measures differently than we do, limiting the usefulness of those measures for those comparative purposes. Because of these limitations, these non-GAAP financial measures should be considered along with other operating and financial performance measures presented in accordance with U.S. GAAP. The presentation of these non-GAAP financial measures are not intended to be considered in isolation or as a substitute for, or superior to, financial information prepared and presented in accordance with U.S. GAAP. We have reconciled these non-GAAP financial measure with the most directly comparable U.S. GAAP financial measure elsewhere herein.

## Non-GAAP combined year ended December 31, 2025

Our financial results for the periods from January 1, 2025 through January 14, 2025 and the four quarters of 2024 are referred to as those of the "Predecessor" period. Our financial results for the period from January 15, 2025 through December 31, 2025, and all subsequent periods, are referred to as those of the "Successor" period. We present the combined results of operations because our Management believes our operating results for the year ended December 31, 2025 for the combined periods of the applicable Predecessor and Successor periods provides the most meaningful comparison of our results to prior periods.

The following table presents a reconciliation of net income (loss) for the combined periods to the Predecessor and Successor periods (in thousands):
